Projects

Astro Portfolio Website
GitHub URL: https://github.com/SotaNoniwa/Astro-Personal-Portfolio
Technologies used: Astro, TailwindCSS, Render

Smart Notebook
GitHub URL: https://github.com/SotaNoniwa/smart-notebook
Technologies used: NextJS, TypeScript, TailwindCSS, OpenAI, Vercel

AI Soccer Game
GitHub URL: https://github.com/SotaNoniwa/AI-Soccer-Game
Technologies used: Unity, ML-Agents, Python3, C#, TensorBoard

Notes Keeper App
GitHub URL: https://github.com/SotaNoniwa/notes-keeper-app
Technologies used: JavaScript, MERN stack, Render

Education

University of Debrecen

Bachelaor of Science, major in Computer Science

September 2021 – Present (Expected graduation in August 2024)

Relevant Subject: Data structures and algorithms, Logic, Statistics, Database systems, Operating System, Software engineering, Network architecture and protocol, Artificial intelligence, Programming languages

Profile

As a motivated and self-driven student, my primary focus lies in the realm of web application development. I have cultivated a robust skill set in areas such as data structures and algorithms, logical reasoning, etc. My career goal is to ascend to the rank of a software engineering expert, and I maintain an unquenchable thirst for knowledge and hands-on experience, always eager to embrace fresh challenges and expand my horizons.

Skills

- **Programming Languages:**
  JavaScript, Python, Java, C, C++, HTML, CSS, SQL

- **Languages:**
  English, Japanese

- **Soft skills:**
  Attention to detail
  Time management
  Teamwork & cooperation
